Myth and Landscape in Ancient Greece

Mainland & Islands, Greece
Myth and Landscape in Ancient Greece
Mainland & Islands, Greece | Program Type: UA Faculty-led | Term: Summer | Minimum GPA: 2.5

“Myth, Ritual and Landscape” is the special focus of the 2015 summer Study Abroad program in Greece. CLAS 302 examines Ancient Greek myths, especially as reflected ritually, and their close relationship to the land. The direct experience of studying Athena in Athens, Zeus at Olympia, etc. provides students with unique insights into the meaning of the myths and the ancient Greeks’ beliefs in the gods.

We will visit icons of Greek art and architecture while the readings illuminate the significance of the sites and the material artifacts. Students will gain unique experiences and critical skills grounded in the landscape and environment in which they flourished.

**Language of Instruction:** English
